

Pruebas

- Creación de Role:

The screenshot displays a REST client interface with a dark theme. At the top, a tab bar shows several POST requests to `http://localhost:3001`. The active tab is titled `ScrumBoardTest / test1-role / http://localhost:3001/api/role/registerRole`. Below the tab bar, the request configuration is shown: **POST** `http://localhost:3001/api/role/registerDiegoRole`. The **Body** tab is selected, showing a JSON payload:

```
{  "name": "user",  "description": "usuario normal de la app prueba"}
```

. The **Body** tab is also selected in the bottom section, showing the response in **Pretty** JSON format:

```
{  "role": {    "_id": "611bef9bc5b793511823cee4",    "name": "user",    "description": "usuario normal de la app prueba",    "dbStatus": true,    "date": "2021-08-17T17:19:23.007Z",    "__v": 0  }}
```

- Creación board:

The screenshot displays a REST client interface with a POST request to `http://localhost:3001/api/board/saveTask`. The request body is a JSON object with the following fields:

```
{  "userId": "611bfaec5b793511823cee8",  "name": "Crear Back prueba Scrumboard",  "description": "descargar framework de angular"}
```

The response is a JSON object with the following fields:

```
{  "result": {    "_id": "611befe2c5b793511823ceeb",    "userId": "611bfaec5b793511823cee8",    "name": "Crear front con angular",    "description": "descargar framework de angular",    "taskStatus": "to-do",    "date": "2021-08-17T17:20:34.377Z",    "__v": 0  }}}
```
